ALL PERSONS who desire to obtain full and reliable information respecting SINGER'S SEWING MACHINES—their price, capabilities, advantages, improvements, method of working, means of procuring them, and all other particulars—can do so by applying at our office,

No. 323 Broadway, New York,

by letter or in person for

I. M. SINGER & CO'S GAZETTE.

This paper is devoted entirely to the Sewing Machine interest. Copies will be supplied gratis to all interested.

N. B.—The unparalleled success of our Sewing Machines has induced several fraudulent imitations of them, besides numerous infringements of our patents—of which we own sixteen. Suits for the infringement of our patents have recently been decided in our favor in the U.S. Circuit Court in New York and New Jersey. In these suits the great principle of Holding down the Fabric to be Sewed to the Surface of the Machine by a yielding pressure, which is used in all Sewing Machines—has been fully established. The Wheeler & Wilson and the Grover & Baker Sewing Machines, as well as ... infringe three distinct patents owned by us. ... against them in several of the U. S. Courts, which will soon be settled. We hereby caution the public not to buy any infringing Machines, as they can be compelled by law to stop using them, and to pay costs and damages.

Local Agents wanted to make sales of our improved sewing machines. To persons properly qualified for the business, a rare opportunity for profitable and pleasant employment is offered.

New and improved machines exchanged on liberal terms for old machines of every kind.

PROFESSOR WOOD'S

HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently gray hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, &c. It will cure, as if by magic, nervous or periodical headach; make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age.

The following is from a distinguished member of the medical profession:

ST. PAUL, January 21, 1855.

Professor O. J. Wood—Dear Sir: Unsolicited, I send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced, on hearing of yours, to give it a trial. I placed myself in the hands of a barber, who had my head rubbed, with a good stiff brush, and your Restorative then applied and well rubbed in, till the scalp was aglow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last until the present time, and is now thick, black, and strong—soft and pleasant to the touch, while before it was harsh, and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your restorative about twice a week, and shall soon have a good and perfect crop of hair. Now I had read these things,—and who has not? but have no faith in any case where my person's hair was really benefitted by any of the hair tonics, &c., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already had a large and general sale throughout the territory. The people here know its effects, and the supply was made of it. The supply you sent to ... wholesale agents for the territory, is nearly exhausted, and daily ... are made for it. You deserve credit for ... and ..., for one, return you my thanks for the benefit it has done me, for I certainly had despaired long ago of ever effecting any such result.

Yours, truly,

J. W. BOND,

Firm of Bond & Keller, Druggists, St. Paul.

[From the Editor of the Real Estate Advertiser.]

BOSTON, 27 School street, March 20, 1855.

Dear Sir: Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and although my hair has not fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours, D. C. MURRAY.

Professor Wood.

CARMEL, Maine, June 19, 1855.

I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and I have no doubt, permanently so.

THE GREATEST

MEDICAL DISCOVERY

Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR,

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples in the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17, Market Square, Portland, Maine, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.

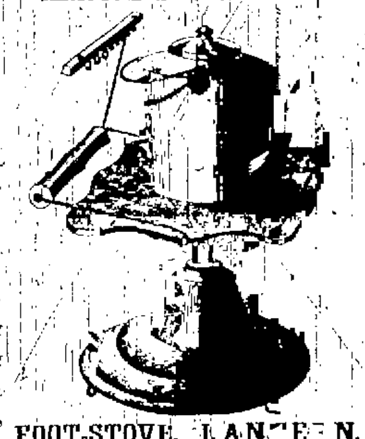
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

....AND....

NURSE-LAMP,

ALBERT NOYES having purchased the exclusive right for manufacturing and selling in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, besides giving the light desired, and for cooking in small quantities. To make a tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

AYER'S Cathartic Pills

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER: Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,

Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M.D.,

Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 15, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, Postmaster.

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M.D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec. 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

GREAT

American and Foreign Office

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St., BOSTON,

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, TWENTY DOLLARS, (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings, necessary for the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,

Commissioner of Patents."

MASS MEETING

IN BANGOR.

Citizens of Maine in favor of Liberty, Peace, and the Union, will meet in MASS CONVENTION in BANGOR, on

Thursday, August 28.

It is an hour in our political affairs for increased serious reflection and patriotic action. The stupendous crime of repealing the Missouri Compromise is yielding its terrible results to the whole country, especially in the immense Territories of the West, which have been given up to slavery, murder, rapine, and war. The wheels of government have been stopped, and revolution is threatened by the slavery agitators because the House of Representatives—the popular department of the country—refuses to vote money from the common treasury of the nation to sustain the Border Ruffian outrages in Kansas, and enable Atchison, Lecompte, Calhoun, Jones, and Donaldson, to conquer and rob the people of that Territory. The Ostend Circular, endorsed by James Buchanan and the Cincinnati Convention, means the annexation of Cuba at the expense of a bloody war, to the great detriment of Labor and Agriculture, and the entire destruction of the Commerce of the country. The Buchanan men of the South, with the servile acquiescence of the Buchanan men of the North, have pronounced against Free Labor and Free Schools. The Declaration of Independence—the Magna Charta of the American people—has been impugned and scouted from high places within the land.

Liberty demands defence. *The Union must be preserved.* National peace should not be jeopardized. Free Labor must be sustained against the attacks of Slaveholders and their paid agents. The Constitution must be preserved against the schemes and acts of the Sectional and *disunion* agitators who seek to wield it as an instrument of despotism.

The meeting will be addressed by a number of the following gentlemen:

Hon. F. D. CULVER, and Gen. J. WYNE, of New York.
Hon. HENRY WILSON and Hon. ANSON BURLINGAME of Massachusetts.
Hon. WM. PITT FESSENDEN, Hon. ISRAEL WASHBURN, Jr., and Hon. LOT M. MORRILL.

Arrangements have been made with the railroad and steamboat lines to take passengers to and from the meeting at half fare. See handbills for special information as to the cars and boats.

REANNEXATION OF THE SLAVE STATES TO ENGLAND. The Richmond Whig proposes the following:

"The time is not so remote but that it lingers in the memory and traditions of our people, when England was familiarly and endearingly spoken of as *home*. If the worst comes to the worst—and we cannot find peace, justice or safety with our Yankee *brethren*—*that time may come again*."

Theodore Hook once said to a man, whose table a publisher got very drunk, "Why, you appear to have adopted your wine-cellar into your book-seller!"

A Western editor says he was taught when a boy to refrain from grumbling at two things: the one is that which he cannot help, and the other that which he can help.

Every Man will Vote either for or Against Restricting Slavery.

In the present political contest there is one plain practical issue, and but one. Every man can see it, and can vote understandingly upon it. That issue is the restriction of slavery, and no man should permit his attention to be drawn from that issue. The people are to determine whether, in their view, it is just, expedient, and constitutional for Congress to declare that Slavery shall not exist in any national territories,—to declare it now, and in the future, by legislative action, as Thomas Jefferson and his co-patriots proposed to declare in the early days of the Republic.

We say there is in reality no other question or issue now before the people. The great political parties are not divided upon the tariff, internal improvements, the United States Bank, the sub-treasury or upon any of the distinct issues, State or National, which once formed the war-cry of parties. Nobody thinks of them now. They are all past questions so far as party politics are concerned. They are all given up or settled. So of our domestic questions. There are none which now constitute a political issue. The truth of this every man will perceive by a moment's reflection.

In the progress of events and the mutations of parties, the political contest of the present year seems to have been cut solely on the great moral question of Slavery, and the political question as to the effects of slavery upon the interests of freedom, and upon the safety of our free Republican institutions. It seems now to be brought out so distinctly—parties are now so squarely and openly arrayed against each other on this question—that every man will vote directly either for or against the Congressional restriction of Slavery, according as he votes with the Republican party or in opposition to it. The Republican party says that slavery is an evil and a curse, which if allowed to go into the vast central territories of the Union, now opening for settlement, will operate forever against the interests of free labor, degrading it in respectability and reducing its wages to an approximation to those of slave labor. The Republican party also regards slavery not only as a violation of human rights, but as an essential y anti-Republican institution, which if allowed to change its local for a national character will become exceedingly dangerous to our Republican government, the theory of which is an *equality of natural rights* in all human beings—no equality in *capacity*, but equality in the right to life, liberty, and the pursuit of happiness; and as slavery denies this principle it is antagonistic to Republican institutions, and Republican institutions cannot longer exist in reality, in any nation or community where slavery is the ruling institution. With these views of slavery, we say—with the clear perception that it interferes with, degrades, and reduces the wages of free labor, and is utterly irreconcilable with Republican institutions, the Republican party says that it must and shall be confined within the constitutional limits of the States where it now exists and where we cannot constitutionally interfere with it. We say that in the Territories belonging to the United States, we have the right to prohibit it, and will forever exclude it by acts of Congress, and appeal to the freemen of the Republic *both North and South* to employ their suffrages to this end.

The parties which oppose the Republican movement are both practically opposed to this restriction of slavery. They both say "Let slavery alone," "Cease agitation." "*The Union will be in danger* if you undertake to stop the extension of Slavery." Those opposing parties both say—one directly and the other virtually—that it is now unconstitutional for Congress to prohibit slavery in the Territories. The party calling itself democratic has distinctly adopted the Southern doctrine that Congress has no right thus to prohibit slavery—and the other party, one calling itself Whig and the other American, dare not distinctly avow the power and the duty of Congress thus to prohibit it. They go for *acquiescence* and *compromise*, where any absolute check upon slavery will be abandoned.

The Republican party therefore, stands out distinctly against the other parties, on the platform of absolute prohibition by Congress of slavery in the Territories. That is the distinct and sole issue of this campaign,—and upon this plain issue every voter of Maine will either go with us or against us. Let every man turn a deaf ear to the deceptions and falsehoods of those who would persuade him that there are any other issues in the contest. There are none other, either State or national. The Republicans ask no man's opinion upon any other question whatever. Every man who goes against slavery extension and desires to make his opposition *practical* and *effectual*, can do so by voting for the Republican candidates, and will be welcomed, with open arms, as a friend of the Union and of Republican institutions, and as a genuine friend of the rights and interests of free labor. FREEDOM and FREMONT are the watch-words.

But let every man, who desires to vote thus, remember that it is even MORE IMPORTANT FOR US TO CARRY OUR STATE ELECTION for republican principles than to give the November vote of Maine for Fremont—for it is considered that the influence of this State election in Maine will be decisive of the November vote of several of the great States. Vote with the party of Fremont then in the State election.

SOMERSET.—The Republican County Convention at Athens on Wednesday was a very large and enthusiastic assemblage—as many as 1500 people being present. The meeting was eloquently addressed by Ex-Gov. Kent, Hon. E. M. Thurston and Joseph H. Williams, Esq. The Convention nominated William Connor of Fairfield, and Sullivan Lothrop of St. Albans, for Senators.

The New York Herald, which has been engaged for some weeks preparing a table of the names, circulation and political position of the papers of the Union and such others as it has been able to gather, publishes the results of its labors. The whole number of papers is 735, which are thus classified: Buchanan, 296; Fremont, 334; Fillmore, 1[illegible]. Circulation of Democratic papers 454,600; circulation of Fremont journals, [illegible]; circulation of Fillmore journals, [illegible].

An Absolute Falsehood.

If the Bangor Journal, or any other pro-slavery or nigger-driving sheet, undertakes to say that any portion of the Republican party intends to bring the Maine Law into the present campaign, or to make any effort for its re-enactment at the next session of the Legislature, we pronounce it AN ABSOLUTE FALSEHOOD, whether as applied to the recent County Convention in this county, or to any other Republican assembly. The Journal speaks of a resolution which was withdrawn from the County Convention—but says nothing about a resolution offered by MR. McCRILLIS of this city, and UNANIMOUSLY ADOPTED, which EXPRESSLY IGNORES any other question for this campaign than that of restoring the government to the policy of freedom maintained by Washington and Jefferson—and pledged faithful adherence to this position, BOTH IN AND OUT OF THE LEGISLATURE. Can anything be more definite and comprehensive than this? Can anybody ask a more distinct pledge than this, that THE MAINE LAW IS NOT AN ISSUE IN THIS CAMPAIGN, AND NOT TO BE ENACTED BY THE NEXT LEGISLATURE? We make the restriction of slavery the common ground for all in this campaign.

See the resolutions of the Republican County Convention, in this paper.

That great "gun" in Kennebec which squibs out so often in the columns of the Journal, poured forth a column or more of misrepresentation and falsehood on Thursday to cover up the mortification and spleen felt by the nigger-drivers at the terrible failure of their attempt to turn the Waterville Commencement to their own political advantage. His account of the Republican triumph on that occasion and the occurrences on board the train from Gardiner, is full of the meanest misrepresentations and falsehoods, as we are assured by those who know the whole circumstances. The Ruffians of his party tore a beautiful flag which the Republicans raised and had a right to raise on one of the cars—and he now adds insult to the injury by charging the infamous rowdyism and ruffianism of the occasion upon the Republicans themselves! Could impudence further go?

The per diem allowance to members of Congress is at an end. The Senate bill heretofore passed giving $2,300 per year was changed in the house so as to give $3,000 a year, deducting for voluntary absence during the session, and giving no books, except those printed by Congress. In this form it passed the House by 101 to 97. It was at once sent to the Senate, and there passed by 27 to 12. The bill applies to the present Congress, the per diem of which for this session amounts to about to about $2,[illegible]00 for each member.

Among the most active opponents of this change was Mr. WASHBURN, of this State. On the final vote the Maine delegation stood as follows:

YEAS:

Samuel P. Benson, Thomas J. D. Fuller, John J. Perry—3

NAYS:

Ebenezer Knowlton, Israel Washburn Jr., John M. Wood—3.

CORRECTION—BANGOR TROTTING PARK.—It was the Fanny Morgan that won the race at the course on the 20th, instead of the supposed Mare as we stated yesterday. The weather being unfavorable neither horse was in their usual time. Fanny Morgan behaved finely and showed herself ready for a hardier contest. The friends of Fanny Morgan will stake one hundred dollars for three or five mile race in sulky or wagon, against any horse in the county to the Bangor track.

The Clinton Courant gives the substance of Mr. Choate's letter in a single sentence:

"The substance of Mr. Choate's position is, that no matter what injustice, meanness, oppression and rascality the fifteen States may practice against the rest, the other sixteen must not unite to defend themselves."

The column and a half of historical sentences and rounded periods, sifted of its verbiage is just that and no more.

Resolutions of the County Convention.

The following are the resolutions reported by the committee and adopted by the Convention:

Resolved, That the present condition of our political affairs requires of the Republican party the laying aside of all local issues, and the sacrifice of all minor differences on the altar of patriotism; and we therefore declare our undeviating attachment to the constitution of the United States, and to the glorious Union, which it established, and our determination to disregard all minor questions in the coming election, until the rights of the people under the constitution are vindicated, and the administration of the government restored to the principles of Washington and Jefferson.

Resolved, That the claim set up by slaveholders, of the right to carry slavery into the common territory, is an attempt to subvert the constitution; and must be met by the earliest protest and the political action of the people; and to this end we pledge our efforts and our votes.

Resolved, That while we regard human slavery as a great social, political and moral evil, our constitutional duties require us to leave to the States where it exists the application of the proper measures for its removal, and with which we will not directly or indirectly interfere; whilst at the same time we regard its introduction into the common territory as alike opposed to the Constitution of the United States and to the best interests of human kind.

Resolved, That the republicans do not intend that the glorious Union of the States shall be dissolved, either by the acts of slaveholders or their abettors at the north, or by any other means whatever.

Resolved, That we condemn the partizan course of the U. S. Senate, in refusing to pass the army appropriation bill. By the 7th sec. of article 1 of the constitution of the U. S. it is, "all bills for raising revenue shall originate in the House of Representatives; but the Senate may propose or concur with amendments as on other bills." The Senate have departed from the usual course of proceeding since the formation of the Government. The bill was properly amended by the House, whose right it was to originate and amend, and in refusing to concur, the course of the Senate was unusual, partizan and revolutionary, and deserves the condemnation of the whole people.

Resolved, That all freemen should flock at once to the standard of John C. Fremont of California, whose youthful vigor, intrepid courage and far-seeing statesmanship, have pointed him out as the leader in the van of the great popular movement inaugurated at Philadelphia on the 11th of June last to restore the government to its original purposes. Under his banner let all men rally in the coming contest, and never cease their efforts til the Banner of freedom floats from the dome of the National Capitol, and the free territory of this Union is forever rescued from the blighting and debasing curse of human slavery.

Resolved, That in Hon. Hannibal Hamlin, the Republican candidate for Governor of Maine, we have an able, faithful and unflinching representative of the principles of the Republican party, in its opposition to slavery extension, and the restoration of the government to the mission of freedom. We pledge ourselves now and here, that on the eighth day of September, we will assure him of our earnest and cordial support, and assure the country of our zeal, by electing him to the highest official station in the State.

Resolved, That we cordially approve of the nomination of Hon. Israel Washburn, Jr., for re-election to Congress. He is a true man. His works praise him. His name is a tower of strength to the Republican hosts; his ability, his earnest zeal, and his unfaltering faithfulness, have won our confidence and secured for him, and he shall receive our best support.

Resolved, That we will give an earnest and cordial support to the candidates this day nominated, and will make all honorable efforts to secure their election on the eighth of September next.

The following resolution was offered by Mr. McCrillis of Bangor, and unanimously adopted:

Resolved, THAT WE NOW REPUDIATE EVERY OTHER ISSUE EXCEPT TO RESTORE THIS GOVERNMENT TO THE DOCTRINES OF WASHINGTON AND JEFFERSON, AND WE PLEDGE OURSELVES TO ADHERE FAITHFULLY AND HONORABLY TO THIS DECLARATION BOTH IN AND OUT OF THE LEGISLATURE.

THE BOSTON DAILY ADVERTISER ON MR. CHOATE.—Mr. Choate stands pretty much alone. And he not only stands alone, but he gets some pretty hard raps from his old supporters. The Daily Advertiser, says:

"The sagacity of Mr. Choate in his general survey of the political horizon has led him to apprehend one great truth, while his too generous confidence in plausible professions has caused him to fall into two great errors—and this truth together with these errors have been the influences which have shaped his thoughts in bringing him to his conclusion.

To begin with the truth. We conceive that Mr. Choate is entirely right when he judges that Mr. Fillmore has no possible chance for success in the approaching election, and that the only contest lies between Messrs. Buchanan and Fremont.

But in determining to give the preference to Mr. Buchanan, we think that Mr. Choate makes two capital errors. In the first place he speaks of the nomination of Mr. Buchanan as a repudiation by the democratic party of General Pierce and his administration. In our view this is a grave mistake. So far from this, the nomination was something more, even than an emphatic endorsement of the present administration—to use a current expression of the streets—Buchanan is just the same as Pierce, *only more so.*

In the second place, we cannot but think that Mr. Choate commits a grave mistake when he admits the claim of the democratic party to be a national party. A national party! The democratic party of the present day is the most dangerous sectional party this country has ever known. The democratic party is a sectional party of the worst type—and its success bodes great danger to the republic; for it already has a majority in the Senate—if it gains the executive and lower house of Congress, into what madness of legislation may it not immediately plunge the country?"

NEW MODE OF COPPERING VESSELS.—English papers state that Mr. Oudry, of Passey, has made preliminary experiments for applying electrotype on an enormous scale—no other than the coppering of wood and iron ships of whatever tonnage. The vessel should be coated with an adherent species of varnish, then placed in a dock, to which the cupriferous solution would be admitted; and then by a series of piles, the requisite thickness of copper would be deposited in from eight to ten days. The advantages promised are diminution of cost and perfection of result; for there being no joints in the copper, destructive animals could not penetrate, neither would there be such an accumulation of weeds on the bottom as now take place.

The Camp Meeting at Wesleyan Grove, Martha's Vineyard, numbered some 300 tents, tastefully and commodiously arranged. The number of persons on the ground on the last Sabbath was estimated at 6000.

Iowa—Later and Better.

We have received, since our latest revision of the returns from Iowa, the Maquoketa Excelsior of the 12th, a letter from Burlington of the same date, and Chicago papers to the evening of the 15th. They are all confirmatory of the glad tidings of a glorious victory, and increase the Republican majorities. Curtis is certainly elected in the first district, and we now believe that his majority will be *nearer fifteen hundred than a thousand!* The Burlington Hawk Eye of Wednesday has returns from all but four counties, which put him 1688 votes ahead of Hall. The counties to be heard from may reduce it a little, but even this is not certain, as report says that several of these missing counties have voted three to one for the republican ticket.

Correcting our own returns in the second district by those given in the Maquoketa Excelsior of the 12th, we reduce Davis' reported majority 26, and that of Leffler in Dubuque 1. Five additional counties add about a thousand to the Republican majority and six hundred to its net gain. The Republican majority on the Congressional vote is 5,037 in 60 counties, and the Republican gain is *four thousand five hundred and twenty-four!*

In regard to the Legislature, the Republican majority must be very large, more than may be found convenient. Of the above sixty counties, the Border Ruffian Democracy only carry 14; the Republicans have majorities in 46. This on the Congressional vote; on the State ticket the Fremonters do better still.

YELLOW FEVER. The New York Mirror has the following:

"The Architect, from Havana, brought four cases of yellow fever; they were immediately removed to the Marine Hospital.—Two persons also died of the fever on the passage, and Dr. Harris reports only 12 cases of yellow fever now at the Hospital.

The Castleton Board of Health held a meeting on Saturday. The subject of the demolition of the barricade was discussed.—It was not deemed advisable to re-erect it at present. Dr. Lea stated that he had now ten men employed in watching the gate and walls night and day. He considered the necessity of guarding the walls more urgent even than guarding the gate. Prisoners engaged in the Hospital, and stevedores and others occupied in unloading infected vessels who could not obtain permits to leave the grounds, were strongly tempted to steal out the best way they could to their homes in the town or in New York. A Committee of conference was appointed to meet the Commissioners of Emigration on Monday.

The yellow fever has made its appearance at New Utrecht Kings county, and it is said that over fifty persons had died of it. The residents had fled panic-stricken, and not enough were left to take care of the sick. It was confined for some days almost exclusively to the section of the county named, and to that section of the Eighth Ward of Brooklyn adjoining New Utrecht and south of twenty-seventh street, the new entrance on Third Avenue to Greenwood Cemetery; but it has now appeared at Yellow Hook, just below Gowanus Bay. Four boys died there on Saturday. One death, too, had occurred at Red Hook Point.

At the County Hospital at Flatbush there have been 12 cases—seven of which, up to Saturday night had resulted fatally. A police force has been placed on the Third Avenue to prevent all communication with the infected district by rag-pickers and others of that class.

IT IS TO BE REMEMBERED, that Rufus Choate finds it necessary, in order to justify his censure of the Republican party, *to attack the Declaration of Independence!* That is the way the new men support Buchanan. They begin with assaulting the immortal charter of our liberties!

An Illinois editor, speaking of a rogue who lives in his vicinity, says: "The rascal has broken every bank, and jail, and Sabbath, we have had in this county for the last five years.

Musquito bites are instantaneously cured by bathing with lime water. That's what an exchange says.

Virtue is the security in the world. What can be more upright than pump-logs and editors? Yet both are apt to be *bored*.

The man who is fond of puddings and pies places himself fearfully in the power of his wife.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systematized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any uninterested can examine specimens of the work at the factory, near the Rose Place, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained or large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old slow and imperfect methods.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, Exposure and Imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patients and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice; they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in succession, to take up the extractive matters, and, in consequence, are most frequently improperly made, and not quite useful, being either impaired, if not entirely destroyed, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest importance to the public, and to the faculty, that there should be a standard preparation of uniform strength and possessing the most elevated ... To effect this and obviate the difficulties ... I have made a number of experiments, to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from, in a highly concentrated form, and are the most active preparations which can be made. Two tablespoonsful of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equal in strength to one gallon of Syrup Sarsaparilla or decoction, as usually made.

Professor Humphrey's

SPECIFIC

Homœopathic Medicines,

—FOR—

Families, Travelers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the more common diseases which occur in every day life. The list includes not only remedies for all the more common diseases, such as Coughs, Colds, Headaches, Derangements of the Stomach, Fevers, Worm Complaints, Diarrhœa, &c., but also for those more sudden and violent diseases which require to be met on the spur of the moment, such as Cramps, Cholera, Dysentery, Inflammation, &c., for whose treatment it is very important always to have the proper remedies on hand. There are also remedies for those more delicate Female derangements which a lady finds it so difficult to disclose, but yet a freedom from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains 30 or 40 Pellets, and 16 boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, diet, &c., necessary for a cure. Cases, also, containing four or six of the small boxes, are put up, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Specific Homœopathic Medicines.—In prescribing other Homœopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhœa, or fever; and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and hence are able to use them with benefit and precision without that labor and study which the business man is so illy able to bestow, and without that research and examination which, to the mother, nurse, or invalid, is so perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by Dr. F. HUMPHREY, Auburn, N.Y., and sold by C. B. WALKER, Agent for Maine, at 31 Main street.
